Making Everyday Living Extraordinary

We are passionate inventors,
dedicated to making life easier and more luxurious.

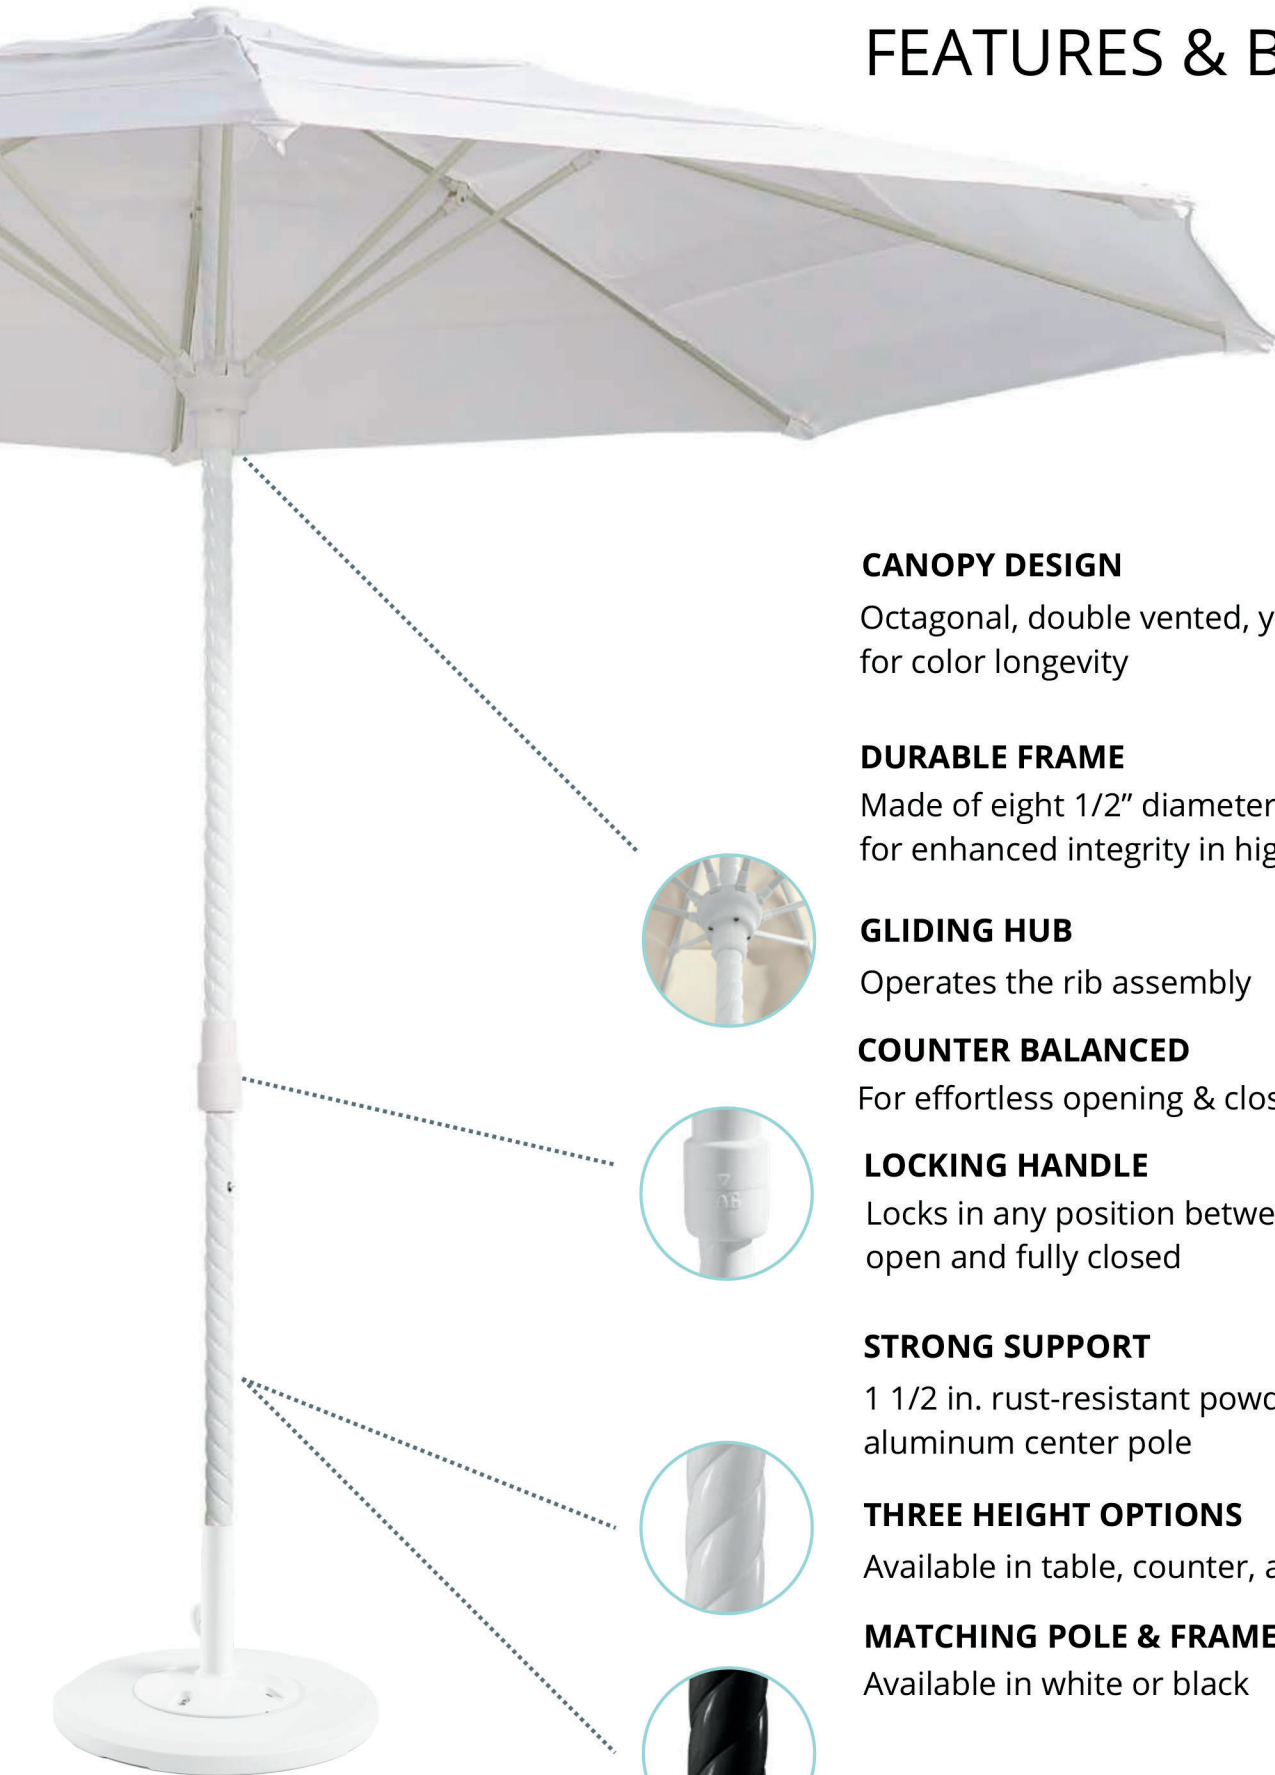

We refined the umbrella with the Helux, so that whether it's a residential or commercial setting, it will enhance time spent outside. The Helux canopy is designed around our exclusive counter balanced spring, so that it can be opened or closed with the touch of a finger. A supportive rust-resistant base is available for purchase separately.

To watch the Helux open with the lightest touch of a finger, scan the QR code.

STORAGE

Umbrella cover is included for further product protection

Protect from dirt, dust, and other outside elements while not in use. This cover, made of durable materials, is designed for ease of application.

An internal fiberglass rod adds vertical reach and effectively promotes safety while you cover your umbrella.

Our extraordinary inventions. So far.

We constantly invent new products that add luxury and convenience to our customers' lives. We are also committed to refining and adding new innovations to our products as the home furnishings industry and customer needs change.
